# UP, UP, AND AWAY!

Did you know there's no steering wheel in a hot air balloon? True story. The pilots are steered by the direction of the wind! The first hot air balloon was launched in 1783 and the passengers were a duck, a sheep, and a rooster, and the first manned flight happened later that year when the Montgolfier brothers launched their balloon in Paris and complete a 20 minute flight. Recently at Encore, residents participated in a hot air balloon craft in honor of National Hot Air Balloon Day.
